FYI

Range Beatification days

Are the first Saturday of even months. June 4th is the next day. Please come out and help keep the range beautiful. Mark your calendars

Adopt a Target

We are still looking for a few folks to adopt the last few targets. When you adopt a target you are taking ownership of the upkeep around the target, which primarily means pulling weeds and cutting any overgrowth that would block a shooter. If you are interested in adopting a target please look on page 8 for those lonely targets and contact Keith Murphy about adopting a target.

Guest Fee

Please remember that all guests of club members that shoot the range must pay a guest fee, this is especially important for the permanent 3D range. We are happy that the 3D range is getting a lot of use, but we want to make sure that we can keep it going. If you would like to donate to keep the permanent 3D range going please see one of the officers or board members.

Fees: \$2.00 on non club shoot days; \$5.00 on club shoot days

3D Range

Due to the CBH Broadhead Championship and Memorial Day weekend, there will not be an organized 3D shoot in the back canyon. Please feel free to shoot the course any time this month, but remember to pay \$1 at Archery Sports to help defray some of the costs of the targets..

Beware of Rattle Snakes

As the warmer weather comes out so do the rattle snakes. Be aware of rattle snakes.

From the Prez.

To all CVA members:

Happy Mothers Day to all the moms in the club. We had a great turn out at the Traditional tournament. We had 102 shooters and lots of fun. I would like to thank everyone who came out to help set up and tear down for this tournament. Thank you for your support, the club cannot keep going without your help.

The growing season is in full swing now and while we have the range under control we cannot let up. If you have adopted a target please check on it at least once a week to make sure that the lanes is clear for shooting. If you notice the bales seem to be torn up let Keith or Stan know so we can schedule them to be replaced.

Have fun and see you at them monthly shoot this weekend.

Richard Carpenter
Conejo Valley Archers
Club President
USA Archery Community Coach

From the Editor

To All,

This will be the first month that we attempt to send the Quiver out electronically.

We will also post it on the web site. We have yet to test it, but hopefully it will not be too difficult. If you do download it from the web site, you will have color photos from the Traditional Challenge Tournament.

Hopefully you will receive this via e-mail before you see the “Snail Mail” version.

Clark Pentico
CVA Editor

CVA JOAD News

Hi all,

No news on testing this month as 40-50 mile-an-hour gusts of wind put an end to that. Allyssa Glaser was contemplating her next pin but tipping the scales at about 50 pounds she realized stability was not an option.

We are going to be replacing all the bales of hay (targets) on our JOAD range very shortly. This will be a fairly large project that might take a few weeks to accomplish. If you have any spare time during the week (after work most likely) or on the weekends and would like to help it would greatly be appreciated. What will happen is the bales will be ordered and delivered to our facility. Step 1 will be to compress the bales to make them more dense so that arrows will have a more difficult time penetrating them, hence, making them last a lot longer. Step 2 once the bales have been compressed they will need to be arranged and mounted in strings (lines) and secured as you are used to seeing them at present. We will also be doing some weed abatement as well. More info is readily available from any of the coaches.

On another note: spoke to Chef Mike and he's already planning the 5th Annual JOAD BBQ for July 2nd. The date is tentative but we'll keep you in the loop as time goes on. I'm already starting to drool. Well, that's about it for now...see you out there Saturday.

Coach Mike

Pacific Coast Traditional Challenge 3D Tournament

We had over 100 archers attend our two day Pacific Coast Traditional Challenge 3D Tournament this year. The weather was quite nice and everyone had a good time. If you shot the tournament you know what I'm talking about (and if you didn't ... what were you thinking?). A special thanks to Bob Bombardier and all who helped to make the tournament so nice.

April Club Shoot

From the office of the
Tournament Chairman,
John B. Downey

Conejo's own Dynamic Duo (Barbara and Brent Richter) created a seismic shock wave (you could see that coming couldn't you) on the course this month and brought in the top two handicapped scores of 584, and 572 respectively. A couple of more scores like that and there will be some real competition for the Club Trophy this year. Clark Pentico had to settle for third (552) this time in spite of shooting the top scratch score of 519.

NAME	HSCORE	SCRATCH	DIVISION	STYLE
Barbara Richter	584	377	A	FSL
Brent Richter	572	429	A	FS
Clark Pentico	552	519	A	FS
Steve Price	545	455	GA	BHFS
Chuck Thurber	532	331	GA	FS

FYI

CVA Elections Coming Up

There are only a few more months left in our calendar year and we will need new officers. If you are interested in a position on let me know. President, VP, Secretary and Board member seats will be coming vacant. If you see want to have an active part in changing the organization this is your opportunity. The time commitment is only one meeting a month. It is a great way to get plugged into what is really happening with the club and allows you to voice your opinions about how you thing the club should change.

3D Shoot

CVA is having the monthly 3D shoot on June 25th and 26th. Don wants everyone there at 7:00 a.m. with all your hunting gear. It is time to find out if you have problems while shooting with a full pack or if your new high tech camo clothes will be hitting your string when you shoot. You need to figure these things out before you are in front of Buckzilla.

Adopt a Target

We are still looking for a few folks to adopt the last few targets. When you adopt a target you are taking ownership of the upkeep around the target, which primarily means pulling weeds and cutting any overgrowth that would block a shooter. If you are interested in adopting a target please look on page 8 for those lonely targets and contact Keith Murphy about adopting a target.

Range Beatification days

Are the first Saturday of even months. August 6th is the next day. Please come out and help keep the range beautiful. Mark your calendars

Beware of Rattle Snakes

As the warmer weather comes out so do the rattle snakes. Be aware of rattle snakes.

From the Prez.

To all CVA members:

I want to thank everyone who came out to help on the last beautification day. For those of you that were not there you missed out on some good polish dog and chips. We will be serving up hot dogs again at the next beautification day. If you want to bring some additional items to add to lunch.

We will be looking for folks to help with replacing the bales on the JOAD range. We will need help with removing the old bales. Planting posts in concrete to hold up the bales and putting the bales back up.

We will send out emails before we start to remind everyone.

The Prez
Richard Carpenter
Conejo Valley Archers
Club President

From the Editor

To All,

Last month we sent out the Quiver electronically and posted it to the web site. This is in addition to the snail mail version. Let me know how you like it. My e-mail is pentico@aol.com.

It was a little more difficult than we had expected, but it always takes longer the first time. Over the next couple months we are planning to reformat the Quiver so that it will be a little more friendly to electronic formats, so expect some changes to the look and feel of this publication.

Clark Pentico
CVA Editor

CVA JOAD

News

Hi all,

We had one brave shooter this month...Meade Ridgley. He got his Bowman pin with points to spare. It was a clear and picture-perfect day for shooting. Good job Meade! Next week JOAD will be closed for the tournament in Long Beach. I'm sure many will earn their pins there as well.

If anyone who is interested in continuing their coaching certifications please let me know and I can hook you up with Van Webster and he can take you to the next level.

On another note: Haven't heard any changes for the 5th Annual JOAD BBQ scheduled for July 2nd so I guess all is a go. Chef Mike keeps me in the loop as to the menu and I'm giving you the inside scoop, you don't want to miss this one!

No news yet on when the JOAD facility is going to be changing out the bales and having our annual work party to clean up the range, but we'll keep you informed. That's about it for now. See you out there Saturday.

Coach Mike

May Club Shoot

From the office of the
Tournament Chairman,
John B. Downey

Well ... Clark is back again at the top this month with a 554 score (524 scratch – nice shooting!). He was followed by Mike “Senior Statesman” Keena (who picked up his first handicap this month) with a 543. Brent Richter (541, 412) and Chuck Thurber (513, 341) finish off the top four. Missing from the top was Keith Murphy who decided to take some pointers from Garry Magness in the use of the Long Bow. Garry came in on top with a 253 to Keith’s 234 (wonder what Garry charged Keith for the education?).

NAME	HSCORE	SSCORE	DIV	STYLE
Clark Pentico	554	524	A	FS
Mike Keena	543	449	A	FS
Brent Richter	541	412	A	FS
Chuck Thurber	513	341	GA	FS
John Brix	493	221	GA	TRAD
Barbara Richter	483	313	A	FSL
Wesley Richter	477	215	C	FSL
Norman Rice	452	452	A	BHFSL
Jim Niehoff	296	296	A	BHFS
Garry Magness	253	253	A	LB
Keith Murphy	234	234	A	LB
Connor Richter	70	70	Y	BB

Club Trophy (Best Five Handicapped Scores)

Clark is still the favorite (for now) to win the Club Championship Trophy (Belt Buckle) with a 554.4 average. Keith is right behind with a 534.4, and the Richter Seismic Duo (Brent 480.6, Barbara 478.4) are in 3rd and 4th. Coming in for 5th was Chuck Thurber, who don't forget, snuck in one year at the very end to win it all. Still plenty of time before this one gets decided.

NAME	AVG	STYLE
Clark Pentico	554.4	FS
Keith Murphy	534.4	BHFS
Brent Richter	480.6	FS
Barbara Richter	478.4	FSL
Chuck Thurber	445.8	FS

Golden Ager (Best 3 Handicapped Scores)

Chuck Thurber is at the top right now for this trophy with a 530 average. John Brix is right behind with a 503, and Steve Price is in third with a 477.0

NAME	AVG	STYLE
Chuck Thurber	530	FS
John Brix	503	TRAD
Steve Price	477.7t	BHFS

Perpetual Trophy (Best 10 Scratch Scores)

Looks like Clark is going home again with this trophy come October. Right now he is 483 points up on Keith due to Keith's two longbow scores.

NAME	TOTAL	STYLE	AVG
Clark Pentico	3553	FS	507.6
Keith Murphy	2970	BHFS	424.3
Brent Richter	1989	FS	397.8

Chuck Thurber	1675	FS	335

Archery, Romance and Elite Culture in England and Wales, c.1780-1840

MARTIN JOHNES, *St Martin's College, Lancaster*

In May 1792, members of the upper class met on Blackheath common to take part in the fourth meeting of the archery societies of England. Dressed in green, the archers marched to their shooting positions to the sound of a beating drum and afterwards retired with the ladies to dine in their societies' marquees. A large crowd watched the glamorous spectacle of their social betters at play. Archery was the latest fashion for the social elite, for whom it combined sociability and status in a romantic atmosphere that boasted picturesque and medieval overtones. As one contemporary writer noted, 'English Archery, once the terror of foreign enemies, [was] now changed into a pleasing, elegant and healthful amusement.'

In the middle of the eighteenth century archery had been little more than a scattered and peripheral pastime. The 'reviver of archery' was Sir Ashton Lever, an antiquarian and collector famous for his aviary and museum. In 1777, Lever was involved in the formation of the Middleton Archers, and then, in 1781, he formed the Toxophilite Society, which combined shooting with considerable drinking and eating. The first entry in its accounts was £21 17s for brandy, rum, wine and gin, and a brass corkscrew.

The mix of sport and conviviality appealed to an aristocracy that had considerable time and money on its hands. Nonetheless, it took royal patronage to turn the novelty of archery into 'the prevailing amusement' and to ensure that the membership of the Toxophilites and 'several other societies, formed a brilliant assemblage of the nobility and gentry of the land'. In 1787, George, Prince of Wales, ever attracted by the unusual and the glamorous, agreed to become patron of the Toxophilites. In 1784, the society had had just 24 members; by 1791 the now Royal Toxophilites had a membership of 168.

The prize shoots themselves were as festive and ceremonial as they were competitive. The Royal British Bowmen toured around the country houses of its members, complete with its own marquee and servants. Members 'marched two and two to the shooting ground, the music playing a new march composed for the occasion, and colours flying. On their arrival at the ground, a royal salute of 21 guns was fired.' Many societies sounded bugles when an arrow struck the target's gold centre and presented prizes to

the champions that included laurel leaves, mediaeval titles and silver bugles, arrows and medals.

Prize shoots were followed by dinners and balls, and often poetry and singing too. The wealthiest societies built their own lodges to host the celebrations, while the smaller societies utilized marquees or local taverns. Such spectacles naturally drew crowds of onlookers when held in public places. Given the haphazard talents of the archers, and perhaps the alcohol consumed, this was not always safe. At a 1791 meeting of the Kendal Archers, which attracted a large and encroaching crowd, a tanner and two tailors were hit by arrows.

The elite (both titled and untitled) of Britain was narrowly constructed and closely related by bonds of marriage and blood. It is not surprising then that the Royal British Bowmen (founded in 1787) had its origins in the marriage of Sir Richard Brooke, fifth baronet of Norton Priory, Cheshire, and Mary, the daughter of Sir Robert Cunliffe of Acton Park, Denbighshire. Sir Richard erected archery butts to entertain his male and female guests, one of whom recalled: 'when we returned home we were so delighted with the amusement that we immediately communicated with our neighbours and proposed the establishment of an Archery Society, to be confined to the families in the neighbourhood of Wrexham.'

Archery's role as a 'link in the chain of society' was furthered by the involvement of women. The Royal British Bowmen was the first archery society to admit females. The ladies were originally to be guests of the society but they indicated their desire to be full members and were granted their wish, with the society retaining its title having decided that 'bowmen' could be taken in a 'comprehensive' sense as applicable to both sexes. The women still had to go through the normal balloting system but were given voting rights and excused all costs except the fines for not wearing the uniform, possibly a reflection of the belief that women had no independent financial means of their own.

In common with the urban fashion for male clubs, other archery societies, particularly those that met in taverns, were not quite so progressive towards their female guests and relatives. Women's roles were limited to shooting at the invitation of their male counterparts or traditional symbolic positions such as the Lady Patroness who would present the winning archer with his prize.

(Part I. To be continued in a future edition of the Quiver)

Shooting Styles

Don't forget to put your style of shooting on your scorecard.

Styles are as follows:

Freestyle Unlimited (FS) - Allows for the use of virtually all types and styles of equipment and aids, including mechanical releases, movable sights, scopes, long stabilizers, etc.

Freestyle Limited (FSL) – Same as Freestyle unlimited above, except that mechanical releases are **not** allowed.

Barebow (BB) – No sighting devices or mechanical releases allowed. String walking (or multiple anchor points) **is** allowed.

Bowhunter Freestyle (BF) – Must use fixed pin sights with no more than **5** pins that **cannot** be adjusted during a tournament. Length of stabilizer limited to 12" max. Mechanical releases are permitted.

Bowhunter Freestyle Limited (BHFSL) – Same as Bowhunter Freestyle Unlimited above, except that mechanical releases are not permitted. Fingers **may** be protected by gloved or finger tabs.

Bowhunter (BH) – No sights or mechanical releases. Length of stabilizer limited to 12" long. Must use a single anchor point and string walking is **not** allowed.

Traditional Styles: (please start one on your score card)

Longbow (LB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Recurve (RB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Selfbow (SB) - No sights, stabilizers, or mechanical releases allowed, Single anchor point only.

FYI

CVA Elections Coming Up

There are only a few more months left in our calendar year and we will need new officers. If you are interested in a position on let me know. President, VP, Secretary and 3 Board of Directors seats will be coming vacant. If you see want to have an active part in changing the organization this is your opportunity. The time commitment is only one meeting a month. It is a great way to get plugged into what is really happening with the club and allows you to voice your opinions about how you thing the club should change.

3D Shoot

CVA is having the monthly 3D shoot on July 23rd and 24th. Don wants to beat the heat and start at 6:30 a.m. It is time to sharpen those shooting skills and be ready for your moment of truth. Hunting season is almost upon us..

Range Beatification days

Are the first Saturday of even months. August 6th is the next day. Please come out and help keep the range beautiful. Mark your calendars

CBH/SAA Free Outreach Program

OUTREACH will introduce archers to CBH/SAA. The program is free and we encourage you to make this information available to club members and fellow archers.

Sign up dates for OUTREACH are July through September 2011.

To be eligible you need an email address and are not currently a member of CBH/SAA.

Participants will receive an email link to the Newsletter plus tournaments and shoots that offer a discount.

To become a participant in OUTREACH send an email to mpsevertson@frontiernet.net with your name, email and address requesting to be a participant in OUTREACH.

From the Prez.

To all CVA members:

Hello everyone I would like to thank the 8 individuals that came out and helped with the cleanup party. We really appreciate your time and effort you put into helping.

But, we are not done there is still a lot of cleanup that needs to be done. I want to make it very clear we are in non-compliance with the county and we only have until the end of the month to get back into compliance. This is very important as some of you know we are in negotiations with the county to renew our lease. If we do not get back into compliance we risk losing our lease.

We still need your help with cleaning up around the bin's; We have to have the brush cleared back 100 feet from the bins; the archery lanes need to be worked on; the roof of the snack shack and animal bins need repairs; dead weeds need to be picked up in the parking lot and around stage.

There are currently 80+ active members we should be able to get more than the same 6-8 people showing up to work parties.

If you can help please contact myself @ 805-433-2952 or Keith Muphy @ 805-558-9312 or show up Saturday to help.

Richard Carpenter
President, Conejo Valley Archers
USA Archery Community Coach

From the Editor

To All,

We are moving into the 90s. We are making a transition of delivering the Quiver from snail mail to e-mail. If you want to save the club some money (and keep the dues down), about \$1.00 per issue. Send an e-mail to myself or Dan Dix telling us "e-mail only" and we will stop filling your mail box with the Quiver in the mail. This will help us test our system before we make the big switch.

Starting next year (November) the default delivery method will be via e-mail and you will have to check a box when you sign up next year to continue to receive it in electronic format.

Clark Pentico
CVA Editor

CVA JOAD News

Hi all,

Well we had, for the first time, zero shooters testing this month. This was partially due to the fact half our staff were absent and the other half were committed to teaching Basic Instructor classes. The other factor involved was that we were jammed with new shooters! It was a crowd we had not anticipated. At any rate, we will get back on track with testing this month (July 30th).

As you probably already know, we did not have our BBQ as planned. Chef Mike was unable to put on the 5th Annual JOAD BBQ as he was detained by a severe case of poison oak. Seems he was out procuring our main entre (hunting for pig) and his friend got stuck in a ravine and needed a helping hand out. Mike went to the rescue but found himself up to his ears in poison oak, which by the way he is allergic to. He wound up in the hospital for a couple of days but thankfully he recovered and was back last week shooting bugs with Trevor and the boys. By the way, Mike did get the pig before jumping down into the ravine! So, we'll keep you posted as to when the next BBQ will be happening.

We are getting closer to replacing all the bales at JOAD range. Preparations are still being made and as soon as we have some dates and times we'll let you know. This will probably be a "word of mouth" type communication as announcements in the newsletter only happen once a month. That's about it for now...hope to see you out there Saturday.

Coach Mike

June Club Shoot

From the office of the
Tournament Chairman,
John B. Downey

Brent Richter jumped to the top this month with a 557 (455 scratch). He was followed by Steve Price with a 551 (472 scratch) and then by Clark (548) and Keith (547). Clark also had the top scratch score this month of 515. Blevins finished out the top five with a nice 544.

NAME	HSCORE	SCRATCH	DIVISION	STYLE
Brent Richter	557.00	455.00	A	FS
Steve Price	551.00	472.00	GA	BHFS
Clark Pentico	548.00	515.00	A	FS
Keith Murphy	547.00	509.00	A	BHFS
George Blevins	544.00	497.00	A	BHFS
John Brix	510.00	248.00	GA	TRAD
Barbara Richter	489.00	307.00	A	FSL
Carlos Parada	462.00	462.00	A	BHFS
Norman Rice	459.00	459.00	GA	BHFSL
Connor Richter	113.00	113.00	Y	FS

Club Trophy (Best Five Handicapped Scores)

Clark is still at the top in the race for the coveted club championship, though he has some competition from Keith and the Richter Dynamic Duo.

NAME	HSCORE AVG	STYLE
Clark Pentico	558.60	FS
Keith Murphy	544.60	BHFS
Brent Richter	520.60	FS
Barbara Richter	508.60	FSL
John Brix	447.20	TRAD

Golden Ager (Best 3 Handicapped Scores)

Chuck is back at the top again this month in the race for the Golden Ager Trophy. Oldsters Steve Price and John Brix are right behind.

NAME	HSCORE AVG	STYLE
Chuck Thurber	530.00	FS
Steve Price	517.70	BHFS
John Brix	508.70	TRAD

Perpetual Trophy (Best 10 Scratch Scores)

Looks like Clark has a lock on the Perpetual Trophy again this year.

NAME	TOTAL	STYLE	AVERAGE
Clark Pentico	4068	FS	508.50
Keith Murphy	3050	BHFS	508.30
Brent Richter	2444	FS	407.30
Barbara Richter	2126	FSL	303.70
Steve Price	1815	BHFS	453.80

Shooting Styles

Don't forget to put your style of shooting on your scorecard.

Styles are as follows:

Freestyle Unlimited (FS) - Allows for the use of virtually all types and styles of equipment and aids, including mechanical releases, movable sights, scopes, long stabilizers, etc.

Freestyle Limited (FSL) – Same as Freestyle unlimited above, except that mechanical releases are **not** allowed.

Barebow (BB) – No sighting devices or mechanical releases allowed. String walking (or multiple anchor points) **is** allowed.

Bowhunter Freestyle (BF) – Must use fixed pin sights with no more than **5** pins that **cannot** be adjusted during a tournament. Length of stabilizer limited to 12" max. Mechanical releases are permitted.

Bowhunter Freestyle Limited (BHFSL) – Same as Bowhunter Freestyle Unlimited above, except that mechanical releases are not permitted. Fingers **may** be protected by gloved or finger tabs.

Bowhunter (BH) – No sights or mechanical releases. Length of stabilizer limited to 12" long. Must use a single anchor point and string walking is **not** allowed.

Traditional Styles: (please start one on your score card)

Longbow (LB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Recurve (RB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Selfbow (SB) - No sights, stabilizers, or mechanical releases allowed, Single anchor point only.

CVA Elections Coming Up

CVA is accepting final nominations for new club officers. President, VP, Secretary and 3 Board of Directors seats will be coming vacant. If you want to have an active part in changing the organization this is your opportunity. The time commitment is only one meeting a month. It is a great way to get plugged into what is really happening with the club and allows you to voice your opinions about your ideas on improving the club. If you are interested in a position please call Clark @ 805 630 1749 and let him know which position you are interested in.

3D Shoot

CVA is having the monthly 3D shoot on September 24th and 25th. Don wants to beat the heat and start at 6:30 a.m. It is time to sharpen those shooting skills and be ready for your moment of truth. Hunting season is almost upon us.

3D Range Rules

1. NO Broad Heads are to be shot at 3D range targets.
2. ONE ARROW ONLY to be shot PER TARGET.
3. DO NOT take cross canyon shots. Safety first!!
4. If you don't have a clear shooting lane, clear the lane before shooting.
5. The cost is \$1.00 per round for members to help offset the cost of target repair/replacement. Please pay at Archery Sports. Non-members pay \$5.
6. If you see a problem with any of the targets call Don @ (805) 577-0335
7. If you are interested in helping maintain the 3D range call Don @ (805) 577-0335

Range Beatification days

Are the first Saturday of even months. October 1th is the next day. Please come out and help keep the range beautiful. Mark your calendars

From the Prez.

To all CVA members:

Hello I want to thank everyone who came out to help with replacing the bales at JOAD and clean up the area. I also want to thank the people who showed up to help on the August beautification day. We will be replacing the remaining JOAD and field practice bales and setting posts September 4th. We can use help the Saturday before loading the old bales into the trash bin that did not fit in the last clean up. Sunday we will tear down the 5 meter targets and all the practice targets. We will then set posts for the 5 meters and 50 yard practices target and put up the new bales.

I would like to add a gentle reminder to those folks who have adopted a target to come out and make sure their target lane is clear of weeds.

The "Fun in the Sun" tournament is coming up October 16th; also the year end banquet/fun shoot is coming up in October 23rd. This year we are going to do a BBQ. If you would like to bring a side dish please contact me. We will also have a sign-up sheet at the next meeting and at JOAD.

Elections ballots will be coming out in early September. Please return them with your votes for officers and board members as soon as possible.

Remember we cannot keep the club going without your help and support. If you have suggestions for how to make the club better or get more participation in our club please let me or one of the board members know.

Richard Carpenter
President, Conejo Valley Archers
USA Archery Community Coach

CVA JOAD News

Hi all,

We had eight shooters this month test for their next pins. Meade Ridgley got his Junior Archer pin but accumulated enough points to get the next pin as well! Good job M...keep up the good work. Doritina Pentico also shot quite well and received her Archer pin. We haven't seen her at JOAD lately but obviously she's been practicing. Mitchel Peace got his Yeoman pin with a gazillion extra points to spare and I guess younger brother Daniel couldn't contain himself any longer and joined in the party and got his Qualified Archer pin. Looks like we might have some rivalry going on??? Tyler Leitzel also got his Yeoman pin with almost enough points to get his Junior Archer pin! And we had a new member join us this week. Owen Roberts, a compound shooter, got his Qualified Archer pin with points to spare as well. All in all it was a great turn-out which kept me hopping the whole afternoon. The other two youngsters who shot were Allyssa Glaser who just missed getting her pin. Allyssa hasn't been able to practice too much lately which seems to be the reason for not moving forward. And then there's Prilentka Pengal. She shot for her Olympian Bronze pin (280 points) and *only* shot a 270. Unfortunately it wasn't enough points for the pin but I'd like to shoot half as good as her.

Saw Chef Mike out at the range and he's feeling much better. We're all glad he's back on his feet and harassing the younger shooters at shooting bugs again. He actually has a tournament going to challenge them and the proceeds are donated to the JOAD club. We're hoping to get the new bales for the range this week and get poles sunk in the ground and the bales mounted. By the time this article breaks the deed will have been done but it's worth mentioning anyway. Well, that's about it for this month. Hope to see you out there Saturday.

Coach Mike

From the office of the
Tournament Chairman,
John B. Downey

We had a nice turnout this month with 16 archers making the rounds and handing in scorecards. Both Clark and Keith shot over 500 scratch this month (519, 514 respectively). When the scores were tallied and handicaps figured in, Keith jumped to the top with a 556. Clark was right behind with a 552. 2011 club shoot scores are in this issue. Please, check the scores for any errors as the awards banquet is coming up.

NAME	HSCORE	SCRATCH	DIV	STYLE
Keith Murphy	556.00	514.00	A	BHFS
Clark Pentico	552.00	519.00	A	FS

Shooting Styles

Don't forget to put your style of shooting on your scorecard.

Styles are as follows:

Freestyle Unlimited (FS) - Allows for the use of virtually all types and styles of equipment and aids, including mechanical releases, movable sights, scopes, long stabilizers, etc.

Freestyle Limited (FSL) – Same as Freestyle unlimited above, except that mechanical releases are **not** allowed.

Barebow (BB) – No sighting devices or mechanical releases allowed. String walking (or multiple anchor points) **is** allowed.

Bowhunter Freestyle (BF) – Must use fixed pin sights with no more than **5** pins that **cannot** be adjusted during a tournament. Length of stabilizer limited to 12" max. Mechanical releases are permitted.

Bowhunter Freestyle Limited (BHFSL) – Same as Bowhunter Freestyle Unlimited above, except that mechanical releases are not permitted. Fingers **may** be protected by gloved or finger tabs.

Bowhunter (BH) – No sights or mechanical releases. Length of stabilizer limited to 12" long. Must use a single anchor point and string walking is **not** allowed.

Traditional Styles: (please start one on your score card)

Longbow (LB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Recurve (RB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Selfbow (SB) - No sights, stabilizers, or mechanical releases allowed, Single anchor point only.

From the Editor

If you are a keen reader of the Quiver you might have noticed that I am turning over the “Editorship” to Robert Luttrell. We have worked on this edition together and he will be taking over the Quiver next month. Please, welcome him and give him any feedback (good or bad) about the Quiver.

Robert will continue the transition into a more electronic friendly version, were e-mail and downloads will be the preferred delivery method, and the US Postal service will be the alternative method for anyone requesting to receive it by mail. This transition should be complete when membership renewals takes place later this year.

The benefits are many (cost, color pictures, environmentally friendly, speed, accessibility on line, etc..), but there are some risks (spam filters, incorrect e-mail addresses, etc...). If you have any issues with not receiving the electronic version, please let Robert know, so we can address the problem.

To date we already have 14 members who have gone electronic. This saves the club money on printing and postage costs, leaving more money to accomplish other needed activities around the range. We still have 163 copies of the Quiver that are going out via “Snail Mail.” We would like your support to get the number of mailed copies down to less than 15, but we need your help to make it happen. If you want to have your Quiver delivered electronically, please e-mail Dan Dix, so he can update your info in the club database.

Clark Pentico,
Quiver Editor

Newsletter Deadlines

Copy for articles, notes, and classified adds are due by the 3rd Friday of each month.
Classified adds are free for club members.

FYI

CVA Elections Coming Up

I wanted to share the process

Counting of Ballots. Following the nominations at the August meeting, the Election of Officers and Directors will proceed as provided under Article X of this Constitution. The time for the counting of the ballots shall not be later than the date of the Annual Meeting in September. A nominee on the ballot for an office shall not assist in counting ballots. (Change #13-95)

This means ballots will be counted at this months General meeting, please get yours ballots in. Thank you

3D Shoot

Due to hunting season both September and October shoots are cancelled. CVA will resume having a 3D shoot in November on the 26and 27th Don would like to start at 7:00 a.m. It is time to sharpen your shooting skills and be ready for your moment of truth.

3D Range Rules

1. NO Broad Heads are to be shot at 3D range targets.
2. ONE ARROW ONLY to be shot PER TARGET.
3. DO NOT take cross canyon shots. Safety first!!
4. If you don't have a clear shooting lane, clear the lane before shooting.
5. The cost is \$1.00 per round for members to help offset the cost of target repair/replacement. Please pay at Archery Sports. Non-members pay \$5.
6. If you see a problem with any of the targets call Don @ (805) 577-0335
7. If you are interested in helping maintain the 3D range call Don @ (805) 577-0335

Range Beatification days

Are the first Saturday of even months. October 1st is the next day. Please come out and help keep the range beautiful. Mark your calendars

From the Prez.

Hello everyone,

I hope you had a great summer. We are fast approaching the end of the fiscal year for CVA. If you haven't already done so, please vote for board and officials. We will be counting votes at the next club meeting on September 25th. If you haven't sent in the ballots yet please do so. You can come by the range on Saturday or the club meeting on Sunday to turn your ballots.

I would like to thank everyone who helped out with replacing the final 5 meter bales and field practice bales. You all did a great job!!!!

It has come to my attention that people have been jumping the fence into the nursery to recover lost arrows. Please do not do this. If you lose an arrow in the nursery please go to the nursery office and let them know you would like to search for your lost arrow. Just as we have our fence up to keep unauthorized people off of our range we need to honor our neighbor's property and not trespass.

Our Fun in the Sun tournament is coming in October. We could really use your help setting up the animals and putting them away after the tournament in addition to help in the snack bar. At the least, come out and enjoy the day, shoot and support our club.

One last topic is the October Fun Shoot. It's going to be a blast! We will be putting up novelty targets and giving out trophies for those archers that competed in the monthly club shoot. Even if you didn't participate in the club shoots, come out for the BBQ we'll be having for all club members. We would like to see all of you there. If you are interested in bringing a dish or desert please let me know, the more the merrier.

It has been my pleasure to be your club president this last year and hope that I was able to make a positive impact on the club during my tenure.

Richard Carpenter
Conejo Valley Archers
Club President

CVA JOAD News

Hi all,

We didn't have anyone test this month who qualified for their next pins. However you have probably noticed all the bales have been completely changed out and a new stairway exists! I understand a ramp is also being contemplated but as yet the final plans have not been solidified. The range looks great! Thank you, thank you, and thank you, to all the folks who came out to lend a hand! It took a lot of work digging holes and concreting them into place but at least next time that won't be necessary. Also, it seems, our lease will be renewed and this time for a longer time frame. This means we can make plans for the new F.I.T.A. range on the other side of our property. We will have more news to come on that as we get it.

On another note, Chef Mike is feeling back to normal and has indicated to me that the next BBQ will be coming up shortly. Standby for dates!!! I can almost taste the sausage now. That's about it for now...see you out there Saturday.
Coach Mike

August Club Shoot

From the office of the
Tournament Chairman,
John B. Downey

We had a small turnout this month. Looking at the scores, it appears that Clark must have had his Wheaties that morning, having shot a 521 scratch (555 handicapped). He was followed closely by none other than Keith Murphy (513, 551), who probably just ate oatmeal.

<i>NAME</i>	<i>HSCORE</i>	<i>SCRATCH</i>	<i>DIVISION</i>	<i>STYLE</i>
Clark Pentico	555.00	521.00	A	FS
Keith Murphy	551.00	513.00	A	BHFS
Chuck Thurber	510.00	338.00	GA	FS
John Brix	463.00	208.00	GA	TRAD
Eric Oland	391.00	391.00	A	BHFS

Club Trophy (Best Five Handicapped Scores)

Clark is looking good right now to win the Club Trophy, though anything is possible. It usually comes down to the last shoot before this trophy is decided.

<i>NAME</i>	<i>AVG</i>	<i>STYLE</i>
Clark Pentico	560.00	FS
Keith Murphy	553.80	BHFS
Brent Richter	540.60	FS
Barbara Richter	528.00	FSL
Chuck Thurber	526.40	FS

Golden Ager – Best Three Handicaped Scores

Steve Price is at the top this month for the award, with a ten point lead over Chuck Thurber.

NAME	AVG	STYLE
Steve Price	546.30	BHFS
Chuck Thurber	536.30	FS
John Brix	515.70	TRAD

Perpetual Trophy (Best 10 Scratch Scores)

Clark is still at the top this month for the “coveted’ award. Looks like it will be sitting on his mantle another year

<i>NAME</i>	<i>TOTAL</i>	<i>STYLE</i>	<i>AVG</i>
Clark Pentico	5108	FS	510.80
Keith Murphy	4506	Mixed	450.60
Brent Richter	2876	FS	410.90
Barbara Richter	2440	FSL	305.00
Chuck Thurber	2371	FS	338.70

Guest Fee

Please remember that all guests of club members that shoot the range must pay a guest fee, this is especially important for the permanent 3D range. We are happy that the 3D range is getting a lot of use, but we want to make sure that we can keep it going. If you would like to donate to keep the permanent 3D range going please see one of the officers or board members.

Fees: \$2.00 on non club shoot days; \$5.00 on club shoot days

Beware of Rattle Snakes

As the weather stays warm rattle snakes stay active. Be aware of rattle snakes.

Shooting Styles

Don't forget to put your style of shooting on your scorecard.

Styles are as follows:

Freestyle Unlimited (FS) - Allows for the use of virtually all types and styles of equipment and aids, including mechanical releases, movable sights, scopes, long stabilizers, etc.

Freestyle Limited (FSL) – Same as Freestyle unlimited above, except that mechanical releases are **not** allowed.

Barebow (BB) – No sighting devices or mechanical releases allowed. String walking (or multiple anchor points) **is** allowed.

Bowhunter Freestyle (BF) – Must use fixed pin sights with no more than **5** pins that **cannot** be adjusted during a tournament. Length of stabilizer limited to 12" max. Mechanical releases are permitted.

Bowhunter Freestyle Limited (BHFSL) – Same as Bowhunter Freestyle Unlimited above, except that mechanical releases are not permitted. Fingers **may** be protected by gloved or finger tabs.

Bowhunter (BH) – No sights or mechanical releases. Length of stabilizer limited to 12" long. Must use a single anchor point and string walking is **not** allowed.

Traditional Styles: (please start one on your score card)

Longbow (LB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Recurve (RB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Selfbow (SB) - No sights, stabilizers, or mechanical releases allowed, Single anchor point only.

From the Editor

Let me start by introducing myself. My name is Robert Luttrell and I have lived in Moorpark, Simi Valley and Thousand Oaks my entire life. Archery is something that I have always wanted to do but kept putting off. I can't tell you how many times my family up in Washington State has invited me to hunt with them and each time I've always said "next year". Earlier this year I had a life changing event; my oldest brother passed away and I realized that I don't know how many "next years" I truly have. I resolved to become efficient with my bow so I can make that trip to Washington State and finally go hunting with my family.

I found CVA on the internet and after reading about it, I wanted to check it out so one Saturday during JOAD I dropped by. I listened to the instructors talk and was happy to see that they were safety conscious while still making it fun. I was very impressed with all 3 ranges. After shooting that Saturday (and bruising the heck out of my arm) the coaches were nice enough to teach me basic form the following week. ☺

Shortly after joining CVA, I was lucky enough to meet some very experienced archers, Curtis Hermann, John Brix, Carl Ward and Gary Magness. They have taken the time to mentor me and show me the ropes. I tell them they can take the credit as well as the blame for my shooting.

After attending a few meetings and getting to know more people, I was amazed at the amount of talent this club has. I started thinking that maybe people would want to share their talents so I asked the board if we could have a CVA open house. To date, the name is undecided however the date will be Saturday November 19th at 12PM. So far I have recruited a few people to do a show and tell. (Bows, arrow fletching, bow string making and some leather) also a couple of JOAD instructors will lend their talent. I'm looking for some help in organizing this day. If you would like to participate or just want to help organize, it would be appreciated. You can reach me a wudstoc@aol.com or (805) 490-8601

Clark has been editor for the last year and a half. I would just like to say thanks for all the hard work and dedication he has put in this newsletter. I hope I can do as great a job as he did.

Robert Luttrell, Quiver Editor

FYI

Lake Casitas is now allowing bow fishing for carp! (Oct. 1 through May 15th). A fishing license is required by law! A free Lake Casitas permit (This is separate from the fishing license) is available at <http://www.casitaswater.org> (Carol Belser is the Recreation Mgr. at the lake) if you need bow fishing equipment Don does stock it at Archery Sports.

Carp fishing is great fun and is something that lot archers like to do So pass the word along.

3D Shoot

CVA will resume having a 3D shoot in November on the 26th and 27th Don would like to start at 7:00 a.m. It is time to sharpen your shooting skills and be ready for your moment of truth.

3D Range Rules

1. NO Broad Heads are to be shot at 3D range targets.
2. ONE ARROW ONLY to be shot PER TARGET.
3. DO NOT take cross canyon shots. Safety first!!
4. If you don't have a clear shooting lane, clear the lane before shooting.
5. The cost is \$1.00 per round for members to help offset the cost of target repair/replacement. Please pay at Archery Sports. Non-members pay \$5.
6. If you see a problem with any of the targets call Don @ (805) 577-0335
7. If you are interested in helping maintain the 3D range call Don @ (805) 577-0335

Range Beatification days

Are the first Saturday of even months. December 3rd is the next day. Please come out and help keep the range beautiful. Mark your calendars

From the Prez.

Hello CVA Members,

As the new CVA President, I would like to thank everyone who participated in the elections, (voters, candidates, and anyone who got involved). This is an exciting time for CVA and the Board of Directors look forward to doing our part in helping the club grow.

A special thanks to Richard Carpenter for being the CVA President this last year. Richard put in a lot of time and effort and has been instrumental in putting CVA in a position for continued growth, some of Richards accomplishments are the new long term lease, new storage bins and the JOAD practice range looking better than ever.

We have a lot going on the last few days of October, with JOAD having their Halloween party and the club fun shoot coming up. I hope people will take the time to come out and participate. It is a great way to meet CVA members, show off your families, bridge new relationships, and have some fun.

With the new fiscal year we are planning to make several big changes. The newsletter will be delivered primarily electronically and will most likely one of the first items you might notice. Also we have an open house coming up next month. This is the first time we have tried this, so come and check it out. We are also working to improve the range and make CVA an archery destination.

If you have any ideas on what improvements you feel will help the club please feel free to let myself or one of the board members know.

Thank you.
Clark Pentico
Conejo Valley Archers President

CVA JOAD News

Hi all,

We had five brave souls show up for testing last month. Mitchel Peace and Tyler Leitzel came back for more and earned their Yeoman pins with gobs of points to spare. Eric Braumhover, after a long hiatus, returned and got his Yeoman pin too. Eric got off to a shaky start but came back strong with enough points to qualify for his next pin as well. They must be practicing! We had two new folks join us. Jalen Lawry and Robbie Hewitt. They both easily gained their Qualified Archer pins by mucho points-oh. The best part was we had great weather and everyone, in good spirits, had a fun time. We will be postponing October 29th testing to Nov 5th because of our Halloween festivities. Please note the change on your calendars.

As I mentioned above we will be having our annual Halloween party on October 29th. There will be lots of fun targets to shoot at and I hear a fog machine might be coming our way as well. So, bring all the goodies you want to share, and most importantly wear a costume! Mom's and dad's as well!

Spoke with Chef Mike this Saturday and the 5th Annual JOAD BBQ Blast will be running concurrently with our Halloween shoot! Mike is back with a vengeance! Lot's of goodies are on the menu and he's excited to get this BBQ up and running. So come hungry! We've been having lots of "private parties" the last six weeks and on behalf of all the coaches we would like to thank everyone who has gone "the extra mile" for their help and participation in making these events run smoothly. As most you know, we host private parties from 1-3pm after the normal 9-1pm JOAD session. These parties are usually twelve or more in a group and the cost is \$10.00 per shooter. We constantly need help in running these parties so if any of you feel inclined to help out please let us know. You do not have to be an instructor to help! There is a sign-up sheet on a clip board at the main table in front of the equipment bin with all the parties listed so you can pick the one that would work best for your schedule. To schedule a party you can contact our new Director of Entertainment: Lee Mainwal; lmainwal@yahoo.com; 805.584.9362. Thanks in advance for your help on this one...well, that's about it for now...see you out there Saturday.
Coach Mike

September Club Shoot

Ten folks came out and braved the weather to shoot last month (the weather actually was pretty nice). Everyone had a good time, and shot well. When it was all over, Keith Murphy snuck to the top with a 534 scratch score (566 with his handicap). Clark merely shot a 513 (559 with handicap). We should all shoot so well ... sigh

As you know Keith and Clark have been battling it out for the Club Trophy. As of last month Clark was in the lead. Was Keith's outstanding 566 (seven point more than Clark this month) enough to put him in the lead for the Club Trophy? The only one who knows for sure is yours truly and I'm not talking. If you want to know yourself, you'll need to come out to the October Fun Shoot & Banquet where all the club awards for the year will be given out.

The October Club Shoot is of course our 'Fun' shoot. We do it for fun, no scores are kept or used for determining handicaps

Remember, the last shoot of the club year is here and gone. We will be starting all over again with new scores and no handicap come the November Club Shoot. .

See you at the Fun Shoot, Banquet, and awards ceremony.

Shooting Styles

Don't forget to put your style of shooting on your scorecard.

Styles are as follows:

Freestyle Unlimited (FS) - Allows for the use of virtually all types and styles of equipment and aids, including mechanical releases, movable sights, scopes, long stabilizers, etc.

Freestyle Limited (FSL) – Same as Freestyle unlimited above, except that mechanical releases are **not** allowed.

Barebow (BB) – No sighting devices or mechanical releases allowed. String walking (or multiple anchor points) **is** allowed.

Bowhunter Freestyle (BF) – Must use fixed pin sights with no more than **5** pins that **cannot** be adjusted during a tournament. Length of stabilizer limited to 12" max. Mechanical releases are permitted.

Bowhunter Freestyle Limited (BHFSL) – Same as Bowhunter Freestyle Unlimited above, except that mechanical releases are not permitted. Fingers **may** be protected by gloved or finger tabs.

Bowhunter (BH) – No sights or mechanical releases. Length of stabilizer limited to 12" long. Must use a single anchor point and string walking is **not** allowed.

Traditional Styles: (please start one on your score card)

Longbow (LB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Recurve (RB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Selfbow (SB) - No sights, stabilizers, or mechanical releases allowed, Single anchor point only.

Range Beatification days

Are the first Saturday of even months. December 3rd is the next day. Please come out and help keep the range beautiful. Mark your calendars

Adopt a Target

We are still looking for a few folks to adopt the last few targets. When you adopt a target you are taking ownership of the upkeep around the target, which primarily means pulling weeds and cutting any over-growth that would block a shooter. If you are interested in adopting a target please look on page 8 for those lonely targets and contact Keith Murphy about adopting a target.

Rain on the Range

As the rainy season approaches there will be times that the dirt road to the back of the range will be closed. This is to keep the roads from being damaged. Please, do not try to drive the roads when they are muddy, as grading the roads is club expense that we would prefer to minimize.

Guest Fee

Please remember that all guests of club members that shoot the range must pay a guest fee, this is especially important for the permanent 3D range. We are happy that the 3D range is getting a lot of use, but we want to make sure that we can keep it going. If you would like to donate to keep the permanent 3D range going please see one of the officers or board members.

Fees: \$2.00 on non club shoot days; \$5.00 on club shoot days

Beware of Rattle Snakes

As the weather stays warm rattle snakes stay active. Be aware of rattle snakes.

Don's Archery Corner

Helping Your Dealer Help You

Every now and again I get a phone calls, or walk-ins that need help with their bows, new arrows etc. Some of the basic questions I need answers:

Bow

What kind of bow do you have?

What is your draw length; some bows require different sting and cable combos.

Is the bow a solo cam, Hybrid, Binary, Wheel, or Dual Cam?

If I have it in front of me it's pretty easy. I've been around for a long, long time. Over the phone is where it gets tricky. If you can save the string and cable measurements that would help the dealer greatly. If not in stock, you can order over the phone or by email and make just one appointment to have the bow repaired.

It helps if you find the serial number, anything major (limbs, cams, risers) to get the right parts.

Arrows

Arrow length is measured from the throat of the nock (Where it touches the sting) to the back of the head.

Size-Depending on if you use aluminum, or carbon. Aluminum has a numbering sequence. (2013) the first 2 numbers are diameter in the 64ths of an inch. The second are the wall thickness. The new shafts (carbon) are SPINE rated. There are different spines for different manufactures (smart huh) just to make it easier. 150 to 600 for MOST applications.

We need to know the numbers (2013) and or the spine (340) to get you the right arrow.

I could go on. Bow and arrows are not as simple as it once was, but a ton of fun when everything works right.

Enjoy your days afield. You only get so many

Don

Don can be reached at Archery Sports (805) 577-0335

From the Editor

Hello all,

I wanted to expand our monthly newsletter and thought it would be a good idea to have the members contribute stories, recipes or anything else you would like to share with the club.

Also, I noticed in past editions of the Quiver there used to be classified ads and wanted to bring that back. If you have something you'd like to sell, why not put it in the Quiver; it's free!

If you are interested in contributing a story or putting in an ad, please contact me at editor@cvarchers.com. Include your contact information so I can get a hold of you in case I have any questions.

Robert Luttrell, CVA Editor

Monthly Newsletter

November 2011

From the Prez.

Hello CVA Members,

If you did not make it to the JOAD Halloween party you missed out on lots of fun, food and archery. I think a good time was had by all. A special thanks to Mike Keena for organizing the food. I know it takes a lot of work and effort to pull something of that magnitude off. And thanks for the coaches for making it a success, not just for Halloween, but for the entire JOAD program.

Just a gentle reminder, those if you have adopted a target, please, clean up your lanes. Most of the lanes look good right now, but if you have not been out to your lane in a while you might want to, check on it and take whatever action you feel would be appropriate. Remember we have a shoot coming up in December and we want the range to be in top shape.

As we head into the last couple months there is a lot going on. We have a work party to help clean up the range and set up targets to get ready for Toys for Tots shoot. If you can come out and help it is always most appreciated. If we get enough people to help the set up is pretty quick. Remember this shot is to collect toys for the kids so that they might have a better holiday. If you cannot make it and would still like to put a smile on a child's face, feel free to make a donation in the name of Toys for Tots.

We are trying something new this year with the first CVA open house, where there will be archery demonstration where I am sure everyone who comes will learn a little more about archery while having a good time

Also, it might seem early to start talking about it but January has the California State Indoor in case anyone wants to travel to it see one of the JOAD coaches and start practicing. I am hoping that we have a large team of archers traveling to it so CVA has a strong showing.

Have fun shooting

Clark Pentico

CVA President

CVA JOAD News

Hi all,

The count was 200+ at our 5th Annual JOAD BBQ Blast on Saturday, October 29th! Judging from all the oooooh's and aaaah's, I would have to say it was a raving success! As usual, we ate chef Mike out of house and home. This event was also paired with our annual Halloween fest which packed the house. There was enough food on Saturday to keep everyone satisfied till the end of this year...and boy was it good! Also, a record number of people showed up with costumes! That really put the icing on the cake. Lots of pictures were taken and hopefully will accompany this newsletter. I spoke with chef Mike the following weekend and he was as "happy as a clam" with the turn-out however, he is beginning to worry about out-doing this last fiasco! Don't worry chef Mike, we have total confidence in you! Next scheduled event will probably be in the spring of 2012...will keep everyone posted. Thanks again to everyone who participated and brought goodies...without your help these events wouldn't be nearly as successful! Thanks, too, to Mike and crew for volunteering to put on these BBQ's! We really appreciate it!

Because of our festivities at the end of October, we had postponed testing for JOAD to the following weekend. We had two shooters who were able to accomplish their goal of moving up the "pin ladder". Both Eric Baumhover and Owen Roberts were able to accumulate enough points to get their Junior Bowman pins. Testing for November will be back on track the last Saturday of the month. December's testing will be the last day of 2011...the 31st of December. So, be sure to mark your calendars! That's about it for now...see you all out there Saturday.

Coach Mike

Next month's club shoot will be moved up a week to the 18th.

Range Beatification days

Are the first Saturday of even months. December 3rd is the next day. Please come out and help keep the range beautiful. Mark your calendars

Maintenance

This is a gentle reminder to those that have adopted a lane or lanes.. As it has been raining the weeds have been growing. Please help to ensure lanes are wide enough for four shooters. Also, lane number 19 is orphaned and needs to be adopted. If you are interested please contact any board member. As always, thank you for your commitment to making our range a safe and fun place for everyone.

Rain on the Range

As the rainy season approaches there will be times that the dirt road to the back of the range will be closed. This is to keep the roads from being damaged. Please, do not try to drive the roads when they are muddy, as grading the roads is club expense that we would prefer to minimize.

Guest Fee

Please remember that all guests of club members that shoot the range must pay a guest fee, this is especially important for the permanent 3D range. We are happy that the 3D range is getting a lot of use, but we want to make sure that we can keep it going. If you would like to donate to keep the permanent 3D range going please see one of the officers or board members.

Fees: \$2.00 on non club shoot days; \$5.00 on club shoot days

Don's Archery Corner

Bullseye Points

For those of you that are shooting screw in points and are experiencing some problems with “soft spots” from soft bales. Resulting in problems with the rubber backing or steel support poles. You might want to try Trophy Points

Bohning made these points until 2 years ago. Now (finally) LD machining in Utah is making its own version.

These points have a larger head to minimize the penetration through the rubber backing behind the bales and aids greatly in arrow removal from 3-D targets.

They are matched weighted and cost no more than regular field points.

Give them a try

Don

Monthly Newsletter

December 2011

From the Prez.

To all CVA members,

The holidays are upon us. I hope everyone had a great Thanksgiving, as we move toward the end of year celebrations and the welcoming of the New Year.

I want to thank Rose and Laura for putting together a successful "Toys for Tots" shoot. There were quite a few shooters that were not club members, which was great to see. Most of them found out about the shoot from the CBH newsletter. Everyone that I talked to had a great time. I'm sure the children who receive the gifts will also appreciate all those who came out.

We have started the New Year for the club shoots. We had a lot of new archers out this last month. Hopefully, we will have more coming out this month. There is still plenty of time to establish a handicap score and win the belt buckle. It is a lot of fun and gives everyone a chance to meet each other before the club meeting.

Also, I want to remind everyone that if you are looking for an end of the year donation, CVA is a 501(c)(3) organization. If you donate now you can get a tax deduction on your taxes.

I want to remind everyone that this month we are having the shoot and meeting a week earlier (Dec. 18th) this month due to Christmas falling on our regular meeting day.

Now, get out and shoot.

Clark Pentico

CVA President

CVA JOAD News

Hi all,

Thanksgiving has passed and most of us are now getting ready for the Christmas season. That, however, has not stopped some of our motivated archers from blazing a path toward archery perfection! This month three of our eager beavers came out and took care of "biz". Mitchel Peace blew by the qualified prerequisites with ease and got his Junior Bowman pin as did younger brother Daniel. Daniel however is a step behind big brother and acquired his Yeoman pin. Both youngsters have a talent and are doing very well.

The coaches will be keeping a close watch on these two. Our third talent, Owen Roberts, easily secured his Bowmen pin with lots of points to spare. Owen is one of our compound shooters and is doing quite well...he will be a contender! There were a few others that showed up to shoot but decided because of the heavy winds to wait till the next time for better conditions. The last day in December (31st) will be the last test date for 2011 so mark your calendars.

On another note, Chef Mike's wheels are already turning! We've been talking about the 6th Annual JOAD BBQ Blast slated sometime in the spring of 2012. I'm not going to reveal any secrets, but I can tell you--you won't want to miss it! We'll keep everyone posted and for those who want to participate please do not hesitate to contact Chef Mike or myself and we'll get the planning process started.

We have had a very successful 2011. Many of our young archers have attended various archery tournaments around the country and have done quite well. Most have come out to CVA on Saturday just to have a good time and hone their skills. All the coaches at CVA are very proud of all the youngsters that participate in our program. We are especially grateful to all the parents as well as they are the "grand supporters" and foundation of the program. So on behalf of all the coaches at CVA...THANK YOU! We love being able to work with you and your kids! Well, that's about it for now...see you out there Saturday.

Have a great holiday season and God bless...

Coach Mike

December Club Shoot

We had a really nice turnout this past month (was the first shoot of the new club year).

Coming out at the top was none other than Clark Pentico and Keith Murphy with identical 506's. Looks like the race to the buckle may be a close one again this year.

With 18 shooters making the rounds and turning in score cards, it was also the best attendance that we have had in a while.

If you haven't been out in a while to shoot, now is the time to do so. If you are a novice, or a bit nervous about shooting on the range talk with one of the club officers or members listed below. We really are a friendly bunch and are more than willing to help.

Name	Division	Sex	Style	Scratch Score
Clark Pentico	Adult	Male	FS	506
Keith Murphy	Adult	Male	BHFS	506
George Blevins	Adult	Male	BHFS	489
Steve Price	GA	Male	FS	463
Norm Rice	GA	Male	FS	456
William Bennett	Adult	Male	BHFS	438
Jim Niehoff	Adult	Male	FS	382
Bill Adrian	Adult	Male	???	350
Chuck Thurber	GA	Male	FS	345
Garry Magness	Adult	Male	Long Bow	304
Curtis Hermann	GA	Male	TRAD	299
Doris Pentico	Youth	Female	FS	261
Kevin Derry	Adult	Male	BHFS	241
John Brix	GA	Male	TRAD	223
Robert Lutrell	Adult	Male	TRAD	189
Pete Sperling	Adult	Male	FS	93
Carl Ward	Adult	Male	TRAD	88

Shooting Styles

Don't forget to put your style of shooting on your scorecard.

Styles are as follows:

Freestyle Unlimited (FS) - Allows for the use of virtually all types and styles of equipment and aids, including mechanical releases, movable sights, scopes, long stabilizers, etc.

Freestyle Limited (FSL) – Same as Freestyle unlimited above, except that mechanical releases are **not** allowed.

Barebow (BB) – No sighting devices or mechanical releases allowed. String walking (or multiple anchor points) **is** allowed.

Bowhunter Freestyle (BF) – Must use fixed pin sights with no more than **5** pins that **cannot** be adjusted during a tournament. Length of stabilizer limited to 12" max. Mechanical releases are permitted.

Bowhunter Freestyle Limited (BHFSL) – Same as Bowhunter Freestyle Unlimited above, except that mechanical releases are not permitted. Fingers **may** be protected by gloved or finger tabs.

Bowhunter (BH) – No sights or mechanical releases. Length of stabilizer limited to 12" long. Must use a single anchor point and string walking is **not** allowed.

Traditional Styles: (please start one on your score card)

Longbow (LB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Recurve (RB) – No sights, stabilizers, or mechanical releases allowed. Single anchor point only.

Selfbow (SB) - No sights, stabilizers, or mechanical releases allowed, Single anchor point only.

FYI

Range Beatification days

Are the first Saturday of even months. February 4th is the next day. Please come out and help keep the range beautiful. Mark your calendars

Rain on the Range

As the rainy season approaches there will be times that the dirt road to the back of the range will be closed. This is to keep the roads from being damaged. Please, do not try to drive the roads when they are muddy, as grading the roads is club expense that we would prefer to minimize.

3D Range News

There have been several broadheads found inside the targets when they were being repaired.

Also, the following arrow was found on the 3D range behind the bear.

Shaft - 30" Carbon Force 300 STL Hunter

Broadhead- 100g Thunderhead

Fletch- Blazers 2", green (hen) and off white (cock)

Nock- green Carbon Force.

If you know who has been vandalizing the 3D range please report them.

If you want to shoot broadheads, bring your own target and shoot near the swinging tire, but do not shoot at the club's 3D targets. If the targets get shot out from broadheads the range be too costly to maintain and will be closed. Protect it if you want to keep a 3D range.

JOAD schedule

Closed Dec. 24th for the Holidays

Open Dec. 31st normal hours

Closed Jan. 7th for CA State Indoors

THE 2011 GENE FOSTER TRADITIONAL RENDOVOUSE

John Brix, Carlos Parada and Curtis Hermann represented the Conejo Valley Archers at this years Gene Foster shoot for a great time shooting and socializing with old friends that had gathered at the shoot.

As always one takes a chance with the weather at the Gene Foster shoot - as it is the second weekend of November each year and that is the beginning of the rainy season. We arrived on Thursday afternoon and set up John's trailer in beautiful weather and that carried through most of Friday before the rain came in. Late on Friday we had a surprise visit from Kevin Hall a good friend and hunting buddy of mine from South Lake Tahoe and he was able to set up camp next to us. Although we had good rain on Friday night we woke on Saturday to cool but pleasant weather and as the camping area soil is quite sandy - mud did not become as big a problem as it could have been. Friday is gathering day at the shoot where one practices and renews old acquaintances, Saturday is novelty day with various speed rounds, pop-ups and a, ³Last Man Standing,² competition. They also have a money clout which Carlos held the lead in for a long time when a Mike Smith (another good friend) came 1/8² closer to the spot and took the money. Carlos did win it last year however - so we don't feel to bad for him.

The Gene Foster Shoot is held on the Fresno Field Archers range in Dunlap a small mountain town in the western Sierra's about forty miles east of Fresno. It is a beautiful range of rolling hills and ridges that are covered in oak woodlands; it also has a large clubhouse and is one of the oldest surviving clubs in the state. I had hoped to garner a bit of accurate history on both Gene Foster and of the FFA Club before putting this little report together. I have some knowledge of both as I have been attending this shoot and the Fresno Safari on and off for thirty years but I wanted to be sure I was accurate on the history. Since no one responded to my email request for history, that part will have to wait until I twist some arms next year.

The Gene Foster is just one of those shoots that once you attend it - it just becomes automatic - that you will return to this annual event as many time as you can. So if you shoot a traditional stick and string, mark your calendar for that second weekend in November - it is an event you won't want to miss!

Our Sunday tournament group consisted of John Brix, Carlos Parada, Curtis Hermann and from Bend, Oregon Dave and Nancy Doran and Fred Cliff all of ³Archery Past² a long time roving traditional archery shop, as well as my friend Kevin Hall, Longbow bowyer from South Lake Tahoe. Tying for second place in the Senior Male Recurve (with the 3rd highest score of the shoot) was your humble correspondent.

Toy's for TOTS

Our 7th annual Toys for Tots tournament was held on Dec. 4. We had 52 shooters join us on a sunny but chill day to help brighten the holiday for many children. We were able to donate 76 gifts to Toys for Tots!

I'd like to say a big thank you to all the Elves that helped with the tournament. It took lots of Elves to put up and take down the 3D animals and novelty targets, decorate, run registration and help in the kitchen, So . . .THANK YOU!!! I hope you will join us next year on the first Sunday in December.

Rose Hoberg - T4T Head Elf

Toys for Tots

From the Editor

Am I the only one who notices all the litter on our range? I'm amazed that a group of adults can't put their trash in the trash cans. While walking the range I saw a lot of water bottles, coffee cups and arrows. Someone was even clever enough to shove a water bottle on a Bow Tree. Really?!

We've always been taught to clean up after ourselves. If you carry it in, please carry it out, if you break or damage an arrow, pick it up. No matter what you may have heard carbons are not biodegradable ...

The rainy season is here I was asked to remind people not to wipe the mud from their shoes on the yardage markers. Once the mud dries, it removes the paint. This is an unnecessary repair that can be avoided.

We all have a responsibility to keep the range clean. If we all do our part and don't discard our trash on the range it will look better and make the range clean up days less daunting.

Again I would like to thank everyone that helped make CVA's 1st Open House a success, many of whom dedicated their whole day. Everyone who manned a station did so with enthusiasm and pride. There were even guys who let the guests go back to the JOAD range to shoot.

I've heard good things from the people who attended and am hoping to have six new members join the club.

I've received a lot of good suggestions for the next one, which I'm planning for summer 2012. If you have any ideas or suggestions, please let me know.

Don's Archery Corner

Rest Cord Tension and Timing issues

There is some question as to how the activation cord may change cam timing. In all instances this can be adjusted. BUT the amount of tension on the cord should be JUST enough to activate the rest. If it is tight enough to stress the cable. It is too tight.

I doubt you will notice if it is too tight. Unless of course you are in the running for the Buckle.

This is one little step to maybe helping you to towards that goal.
